The data provided above is intended to provide information about the number of students who have graduated from a particular type of academic program. Because the programs may be offered at one or more of the campuses listed above, the rates do not and cannot reflect the on-time completion rate for a specific academic program at a specific campus.

If the number of students who completed a program during the award year was less than ten (10), for privacy reasons, the institution will not disclose this information (shown as N/A).

## Frequently Asked Questions

### ON-TIME COMPLETION RATES

#### 1. Who is considered a completed student?

A completed student has completed the graduation requirements for their program and is classified as a graduate of the school.

#### 2. How are On-Time Completion Rates calculated?

These rates are calculated using the gainful employment formula in order to comply with U.S. Department of Education requirements. The statistics track all students who completed their program within the date range noted above and have reached completion within the program's designed time period. For example, for a two-year program, the on-time completion rate would include all completed students who had started their program at this school two years prior.

**Campus: Sanford-Brown College - Houston (North Loop)**

Graduation Rate	
Number of first-time, full-time undergraduate students who started between 9/1/2008 - 8/31/2009	The percent who completed within 150% of the normal time period
308	59%

**Frequently Asked Questions****GRADUATION RATE****1. Who is a first-time student?**

A first-time student has no prior postsecondary experience before enrolling at this campus. This means that a student who attended another college, university or other postsecondary school before enrolling at this school is not included in the calculation. The rate also does not include students initially enrolled part-time, taking individual classes (as compared to enrolling in a full program), or only auditing classes.

**2. How is the Graduation Rate calculated?**

The rate is calculated using the Student Right-to-Know formula in order to comply with U.S. Department of Education requirements. The statistics track all first-time, full-time and certificate or degree-seeking undergraduate students who began school during the date range noted above and have completed within 150% of the normal program length. For example, for a two-year program, the graduation rate would include students who had completed within three years of beginning the program. Information pertaining to the Graduation Rates of all postsecondary institutions recognized by the U.S. Department of Education may be found on the College Navigator website. <http://nces.ed.gov/collegenavigator/>

## Employment Rates

In connection with a now satisfied "show cause" directive from our accrediting body, the Accrediting Council for Independent Colleges and Schools (ACICS), our school engaged an independent third party firm to attempt to re-verify graduate placement information that we reported to ACICS for the 2011 cohort. The firm attempted to re-verify placement information by calling our student graduates and their employers to seek confirmation of their post-graduate employment status. Although successful in many respects, this calling campaign yielded a number of inconclusive responses. For example, the firm reported a number of placements as "unable to verify" because certain employers and student graduates were unreachable or unwilling to provide the requested confirming information.

Following the completion of its re-verification calls, the firm reported the results of its work to ACICS. ACICS in turn directed our school to update our placement rates to exclude any inconclusive re-verifications (e.g., placements that the firm had reported as "unable to re-verify") in addition to any placements that we had otherwise determined were not supportable as in-field or related-field placements after completing the re-verification review.

In accordance with ACICS' directive, we are reporting three employment rates on a campus level for student graduates in the 2011 cohort. The first two rates give effect to the findings of our previously reported internal investigation of placement rates. These rates were determined on an "actual" and "extrapolated" basis, as explained further in the footnotes to the table below. The third "updated" rate gives effect to ACICS' direction that we update our placement rates that were not able to be re-verified, as described above.

Additionally, for the Medical Assistant and Surgical Technology programs, we are providing an "updated" ABHES rate that represents the same placements reported to ACICS and also gives effect to the results of the re-verification process described above.

Given the fact that all of the rates reflected above are based on historical data and were subject to varying levels of audit and re-interpretation, students should not rely on them as an implicit or explicit representation or promise of future outcomes or employability following completion of a program of study. Indeed, there are numerous factors that affect a student's ability to graduate and secure employment over which we have little or no control. Therefore, our school cannot and does not guarantee or estimate the likelihood of on-time completion, graduation, or employment for any student.

If you have questions regarding these employment rates, please contact us at 1-855-708-2085.

#### **Accrediting Council for Independent Colleges and Schools (ACICS)**

**Reporting Period:** July 1, 2010 through June 30, 2011

**Date Submitted:** October 2011

The scope of ACICS recognition by the Secretary of Education is defined as accreditation of private postsecondary institutions offering certificates or diplomas, and postsecondary institutions offering associate, bachelor's, or master's degrees in programs designed to educate students for professional, technical, or occupational careers, including those that offer those programs via distance education.

#### **More Information:**

(PF+PR)/(G-U)

PF = Placed in Field, PR = Placed in Related Field  
G = Graduates and Completers, U = Unavailable for Work

- "Placed in Field" means the position requires a direct use of the skills taught in the program
  - In applying this ACICS definition, we classify graduates as employed in some cases if they are employed on a part-time or temporary basis or in a non-traditional capacity.
- "Placed in Related Field" means the position requires an indirect use of the skills taught in the program.
- A "graduate" is (all of the following):
  1. Has achieved a GPA of 2.0 or greater at graduation.
  2. Has successfully passed all courses in the program or substitute courses permitted by the institution.
  3. Has attained required competencies or speed levels in all courses.
  4. Has met all clinical, internship, and externship requirements.
  5. Has satisfied all other academic requirements for graduation.
  6. Has satisfied all non-academic requirements for graduation, such as payment of tuition and fees, return of books, etc.
  7. Has received the appropriate credential.
  8. Ceased enrollment in the program at the institution.
- A "completer" is a student who is no longer enrolled in the institution and who has either completed the time allowed or attempted the maximum allowable number of credits for the program of study but did not accomplish one of the following graduation requirements:
  1. Achieve a GPA of at least 2.0.
  2. Attain required competencies or speed skills.
  3. Satisfy non-academic requirements (e.g., outstanding financial obligations).
- "Unavailable for work" includes graduates who are unavailable for employment because of pregnancy, death, or other health-related situations, continuing education, or military service, as well as students who are not eligible for employment in the United States because of visa restrictions, or who are completers and graduates of a stand-alone English as a Second Language program.
  - o Spouses and dependents of military personnel who have moved due to military transfer orders should be included.
  - o Graduates are not considered "Unavailable for work" if they have relocated from the area, declined the use of placement services, or expressed a lack of interest in seeking employment. Also, graduates who may be working out of their home cannot be listed under this category. Instead, they must be listed as employed if documented evidence is available or not working if documentation cannot be obtained.

**Accrediting Bureau of Health Education Schools (ABHES)**

**Reporting Period:** July 1 through June 30

**Date Submitted:** October 2011

ABHES is recognized by the United States Secretary of Education for the accreditation of private, postsecondary institutions in the United States offering predominantly allied health education programs and the programmatic accreditation of medical assistant, medical laboratory technician and surgical technology programs leading to a certificate, diploma, Associate of Applied Science, Associate of Occupational Science, or academic associate degrees and programs offered by distance delivery.

**More Information:**

The ABHES threshold for Graduate Placement is 70%

$(F + R)/(G-U)=P\%$

F = Graduates placed in their field of training

R = Graduates placed in a related field of training

G = Total graduates

U = Graduates unavailable for placement (health-related issues, military obligations, or continuing education status)

P% = Placement percentage

**CAAHEP – Accreditation Review Council on Education in Surgical Technology and Surgical Assisting (ARC-STSA)**

**Reporting Period:** August 1, 2009 to July 31, 2010

**Date Submitted:** May 2012

The mission of the Accreditation Review Council on Education in Surgical Technology and Surgical Assisting is to provide recognition for the quality of the education programs in its system to the public. The ARC/STSA® is the only CAAHEP-recognized Committee on Accreditation for education programs in surgical technology and surgical assisting.

**More Information:**

The ARC/STSA threshold for Graduate Placement is 80%.

Total Number of Graduates Placed<sup>1</sup>

Divided by/

Total Graduates = Placement Rate

<sup>1</sup> Number of graduates employed in the field within one year of graduation

Plus (+)

The number of graduates who were both employed in the field within one year of graduation and continuing their education

Plus (+)

The number of graduates who were not employed in the field within one year of graduation but continued their education

**Joint Review Committee on Education in Radiologic Technology (JRCERT)**

**Reporting Period:** January 1, 2007 through December 31, 2011

**Date Submitted:** July 2012

The JRCERT promotes excellence in education and elevates quality and safety of patient care through the accreditation of educational programs in radiography, radiation therapy, magnetic resonance, and medical dosimetry. The JRCERT is the only agency recognized by the United States Department of Education for the accreditation of traditional and distance delivery educational programs in radiography, radiation therapy, magnetic resonance, and medical dosimetry.

**More Information:**

The JRCERT threshold is a five (5) year average job placement rate of not less than 75% within six (6) months of graduation

Job placement rate is defined as the number of graduates employed in the radiologic sciences compared to the number of graduates actively seeking employment in the radiologic sciences within six months of graduation.

**Texas Workforce Commission (TWC)**

**Reporting Period:** September 1, 2010 to August 31, 2011

**Date Submitted:** December 2011

The State of Texas, through the Texas Workforce Commission (TWC), requires disclosure of Employment/Placement Rates and other information through its form PS-005. This data is an excerpt from the PS-005 regarding Employment Rates. Prospective students receive and sign a copy of the PS-005 prior to enrolling. For a complete copy of the PS-005, please see your Admissions Representative.

**Employment Rate Calculation:**

The minimum employment rate for TWC is 60%.

Number of employed graduates (placed<sup>1</sup> + not placed<sup>2</sup>)  
Divided by/  
Number of eligible graduates (total graduates – waivers<sup>3</sup>)

<sup>1</sup> Graduates that found a job related to training

<sup>2</sup> Graduates that found a job related to training, with the school's assistance

<sup>3</sup> Waivers include graduates who continued postsecondary education, are in active military service, were incarcerated, or deceased after graduation.
